Dear Mr. Holbrook:

RE: Permit Application Additions Tracking, Genwal Coal Company,  
Crandall Canyon Mine, ACT/015/032, Emery County, Utah

In our meeting November 5, 1986 you requested copies of all 1986 Genwal Tract 1 submittals from the Division of Oil, Gas and Mining (DOGM) to the Office of Surface Mining (OSM). Please find the six (6) letters enclosed. Genwal cover letters relating to each DOGM to OSM submittals are attached to the appropriate correspondence.

During the month of June and July, Genwal was not submitting sufficient revision copies for the review process. Therefore DOGM submitted only five (5) copies of each Genwal submittal to OSM for the months of June and July. In the first week of August, Genwal Coal Company submitted the additional material from the previous submittal. Two (2) "sets" of the previous submitted material (i.e. June 18, and July 15 and 18, 1986) was mailed to OSM on August 5, 1986. I hope this information is helpful. Please submit a listing of any Genwal Application additions that are missing from your files.

Sincerely,

A handwritten signature in dark ink, appearing to read "James S. Leatherwood".
